

Calibre Mining Corporation is engaged in the exploration and development of the Valentine Gold Mine located in the central region of Newfoundland and Labrador. Once in production, it will be the largest gold mine in Atlantic Canada and a major employer in the province. Calibre is a public corporation (TSX:CXB) headquartered in Vancouver, British Columbia with a regional office located in Grand Falls-Windsor, NL.

Additional corporate and Project information is available at www.calibremining.com

Calibre is currently inviting applications for an **Exploration Supervisor** to join our growing team as the company transitions from mine construction to mine operations.

Supervisor, Exploration

Reporting to the Project Geologist, the Exploration Supervisor is responsible for ensuring the work of the Exploration department is completed in a safe, efficient and effective manner. The incumbent will perform duties such as interviewing and training new employees, scheduling and supervision of employees and contractors, KPI tracking and reporting, development and implementation of safety protocols and procedures, core logging, prospecting, and other field work.

This position is located at the project site, working on a 14 days in / 14 days out rotation.

Accountabilities/Responsibilities:

- Demonstrate leadership in Health, Safety and Environment through personal behaviours and conversations.
- Establish and promote a respectful and healthy work environment.
- Promote a proactive approach of continuous improvement by reporting all Health, Safety and Environment incidents and communicate solutions.
- Provide on-site supervision and training for new employees.
- Supervise on site contractors.
- Conduct incident investigations.
- Develop and implement schedules, workflows, protocols and procedures to ensure a safe and effective workplace.
- Monitor progress across the department to ensure goals are met on time and on budget.
- Data management and interpretation.
- Core logging and sampling.
- Conduct field mapping, including trench, outcrop, and regional mapping.
- Prospecting, soil, till and rock sample collection.
- Collection of measurements with a portable XRF unit.
- Adhere to all company policies and procedures.
- Perform other related duties as assigned.

Education and Accreditation

- BSc. in Geology.
- Currently registered as a GIT is a minimum requirement.
- Registered as a P.Geol is considered an asset.
- Experience in a remote setting and on shift/rotations is considered an asset.
- Experience in a mining or exploration setting is considered an asset.

Skills and Knowledge:

- Strong ability to work cooperatively within a team environment.
- Self-motivated and able to complete work with minimal supervision.
- Strong organizational and interpersonal skills are required.
- Team-oriented but individually driven to produce results.
- Competent with Microsoft Office and data-management software.
- Knowledge and experience specific to mineral exploration and the mining industry.
- Experience in a previous supervisory role.
- Proficient in the use of specialized software and techniques relating to the mineral exploration industry (ie: collection and processing of geological and geotechnical data).
- The ability to manage heavy physical work, which is defined as maximal lifting, carrying, pushing or pulling up to 55lbs.
- A valid driver's license and drivers abstract.

Calibre is an equal opportunity employer committed to local hiring preferences and all applications will be considered on this basis. We value equity and diversity and are committed to creating an inclusive workplace environment for all employees. Calibre reserves the right to hire only those candidates who are appropriately qualified for the position advertised.

Calibre will review all applications; however, we will only contact those candidates who best fit the requirements.
